Want To Design Your Own Custom-Couture Shoe? No Problem

Tupli, the custom-designed shoe team, has all the materials and fashion savvy to make that happen. Created by Kathy Myczkowski and Tamara Chubinidze, Tupli's fashion mission is to encourage your feet to have their own identity.

The intimate salon houses European-imported materials such as diamonds, beads, leather, suede, satin, color swatches, and anything else your feet desire. By appointment only, a customer can come in, sit with the creative designer and illustrator and create their one-of-a-kind shoe.

Each shoe is molded to the customer's feet in order to assure the best fit. The turnaround time is maximum 3 to 4 weeks, and they can also refurbish an existing shoe if you so choose.

Before meeting to become the inspiring developers of Tupli, Tamara Chubinidze was a child in the Republic of Georgia, while Kathy was born and raised in Poland. Both incredible women were visionaries coming to the U.S. to conquer this land of opportunity.

With over 10 years experience in business, Kathy's savvy nature balanced perfectly with Tamara's more artistic spirit. "Tamara is the more creative one," Kathy says. "She has designed countless pairs of shoes for herself and friends alike. I, on the other hand, am the more organized one...so with my business sense and her originality and drive, we make the perfect match!"

Meeting in 2002, they merged personalities and visions to become co-founders of this amazingly creative shoe-line. These shoes can be created for all occasions, whether it's work or a wedding, **Tupli** designs the shoe of your dreams. Price Points: Custom-Made Shoes will start at \$600.00; Custom-Made Boots will start at \$1,200.00.
