Have some fun with your wardrobe with Fluff's super cute line of underwear, pajamas, handbags and more! Debuting in 2002, Fluff is the creation of Los Angeles artist, Claudette Barjoud. Each collection's designs are based on her artwork and inspired by vintage pinup, 20s glamour, mid-century modernism, fashion and an eclectic mix of art. After designing products for several companies, the last of which being Frederick's of Hollywood, Claudette decided to follow her dream and see it to fruition. Starting with a series of handmade, fun and sparkly greeting cards, Fluff has evolved into full lines of playful collections of themed lines that are unique to themselves and each stay true to the namesake that inspires their designs.
