

Fluff - a collection of cute, vintage and retro-inspired totes, cards, lingerie, t-shirts, and accessories was created by Los Angeles artist Claudette Barjoud to provide equal parts of girly, light-hearted glamour and fun to every day items. The "Fiona" collection is my favorite - a whimsical, curvy, just-this-side-of-naughty black cat with a sexy, woman's face seated in various poses against a hot pink background. She adorns wallets, makeup bags, coin purses, pillows, and totes such as the eye-catching, screen printed vinyl **Large Shoulder Tote \$29.00** (photo), just perfect for beach, travel or as a gift. The **Beau Veaux Makeup Bag \$12.00** is a 5 x 7 2/8" zippered, vinyl-covered canvas rectangle (with pink, heart-shaped pull tag) that makes toting makeup more fun than ever. There are six designs combining a sassy-looking mannequin's head with flowers or hearts. Ours, "Dollface," has an ivory background strewn with small, bright, 1960's type flowers and a sweet, 1920's-style flapper head on one side, the "Fluff" logo on the other.
