**WHEN IT COMES TO SHAVING, RAZOR BURNS, NICKS, AND DRY SKIN  
ALL SPELL BEAUTY TROUBLE, ISN'T IT TIME FOR A SUMMER WITHOUT  
RAZOR STUBBLE?**

---

**New York, NY April 4, 2002** - In the American Culture any type of female body hair, save for the hair on the head is viewed as unattractive and unfeminine. Women spend millions of dollars annually on waxing, electrolysis, laser hair removal, and depilatories. It often seems that good old fashioned razors and shaving cream have fallen by the wayside in favor of more state of the art means of smoother skin with longer lasting results. Dr. Milton Moore is a Houston, Texas Dermatologist and the founder of Moore Unique Skin Care. He realized the void in the market for shaving solutions that can provide the smoothest, longest lasting results on any area of the body for use by men and women alike. So unique is his formula, that its ingredients are patented.

With the Hydroglide, Dr. Moore has a motto for his male users that goes as follows: "move your five o'clock shadow to after midnight." The hydroglide enables men and women to shave closer thus taking longer for the hair to hit the surface. Because this product allows for enhanced hydration, it is an ideal solution for those who have sensitive skin or are prone to razor rash. An added benefit is that the hydroglide allows for more effective use of products following its application such as sunscreen or ointments. For those about to hit the beach and suddenly notice unsightly stubble, Hydroglide is ideal for the girl on the go because women can shave without water due to this incredibly hydrating formula. Priced at \$7.00 for 8 fluid ounces smooth skin is within anyone's reach.

Moore Unique Razor Rash Relief- This is an extremely effective patented cream that eliminates razor bumps (ingrown hairs) no matter what shaving technique or system a woman uses. This anti-bacterial cream contains sulfur and salicylic acid that softens and straightens the hair. During the shaving process, the hair will be shaved off and will not revert to the skin or hair follicle. Hairs already trapped in the hair follicle will be freed by use of this revolutionary product. At \$13.00 for two fluid ounces anyone can afford to say "razor burn be gone."

Dr. Moore's products are available for purchase online at [www.MooreUnique.com](http://www.MooreUnique.com) as well as select Walgreen Drug Stores. \*\*Scientific Abstracts are also available to illustrate efficacy of products and their ingredients.
