Keep Summer Skin Sultry With Four New Treatments At Oasis On Park Day Spa

New York, NY 2002 - Each summer it appears that the sun is getting hotter and hotter, yet that doesn't seem to stop any of us from baking on the beach. Doctors and skin care experts continually remind us of those ever so important high SPF sunscreens, but unfortunately most of us are going for that golden glow that can never be achieved by slathering sunblock all over our bodies. And by mid-summer the burning rays of the sun leave the majority of us feeling a bit overcooked. So with a little help from Oasis On Park, below are four new treatments which help bring skin back to life feeling sultry, smooth and soft.

- **Brown Sugar Body Scrub** This treatment uses a fine scrub including grapefruit, ginger and brown sugar to exfoliate and massage away dry skin and improve circulation. Your skin will be left feeling buttery soft and smelling great.
- **Citrus Splash Facial** This Sea "C" facial utilizes Vitamin C and its antioxidant properties to repair facial skin from sun damage, improve skin texture, pigmentation and elasticity. The facial also includes nourishing seaweed patches and organic mud mask. You'll be left with a radiant and glowing complexion.
- **Hydrolifting Facial** A powerful moisturizer, as well as an exceptional lifter, this anti-aging facial will leave skin looking and feeling more toned, lifted and radiant. In addition, each summer the sun robs us of collagen, which is generously replaced by this unique treatment.
- **Detox Herbal Linen Wrap** This intense detoxification and relaxation treatment utilizes steaming linens soaked in rosemary, ginger root, eucalyptus, clove and all spice. A great summer purification treatment that moisturizes the skin while relieving muscle tension and eliminating toxic deposits from the body.

So don't let the summer sun wear away at your skin.
